How Many Units? Which Classes to Take?

The College of Letters & Science recommends
12-14 units for an entering student in their **first quarter**.

Here are some things to consider when making your fall quarter schedule:

- First quarter is a time to explore. You have plenty of time to fulfill your graduation requirements.
- Try for a range of courses, some requirements and some electives.
- Many students do not take courses for their major until their 2nd or 3rd quarter (excluding science/engineering/fine arts majors).
- If working, consider 12 units.
- Consider the transition both academically and personally.
- Follow advice from professional advisors (athletics, EOP, Engineering, Creative Studies, DSP, etc.).
