+ Activities where students and parents are together. See Parent Orientation on this website for Parent Program Overview.

✧ Our campus dining commons can accommodate many diets with a variety of food options available. Dining commons menus will be posted online for the current day, plus six days in advance, and guests may use this Food Facts Tool to identify common allergens and determine safe foods to consume. Additionally, for guests with medically required gluten-free diets, there is a secured, Gluten-Free Cabinet in each dining commons that can be accessed with advance notice and coordination with our Dietitian. Any guests following a medically required gluten-free diet should contact sa-orientation@ucsb.edu at least seven days prior to their Orientation session.
